-Tabela Department

-Tabela aisles

-Tabela Products

The screenshot shows the pgAdmin 4 web interface. On the left, the 'Browser' pane displays the database structure, with 'aisles' expanded to show 'products'. The 'Query Editor' pane contains the following SQL query:

```
1 SELECT * FROM public.products
2
```

The 'Data Output' pane displays the results of the query, showing a list of products. The columns are: product_id, product_name, aisle_id, and department_id. The data is as follows:

product_id	product_name	aisle_id	department_id
2988	bag of rice	23	11
5989	Sliced Tamed Jalap...	110	13
5990	Mustache & Beard ...	22	11
5991	Bok Choy	83	4
5992	Revitalizing Oil Pum...	114	17
5993	Dishwashing Liquid...	74	17
5994	Traditional Refried ...	59	15
5995	Asiago Pressato	2	16
5996	Salsa de Tomate C...	30	6
5997	Cranberry with Calc...	98	7
5998	Fourth Style Steak...	22	11
5999	Semi-Soft Cheese...	21	16
6000	Organic Baby Roma...	123	4

A status bar at the bottom right indicates 'Table rows counted: 49688'.
